The Remuneration and Governance Committee is appointed and authorised by Heritage's Board to assist the Board in fulfilling its regulatory obligations. 	<p>an overview of the key features and objectives of remuneration policy;</p>	<p>A key objective of Heritage's remuneration philosophy is to enable Heritage to attract, motivate and retain high performing senior executives. Remuneration, including any performance based component, is designed to appropriately reward senior executives (and all employees) to encourage behaviour that supports Heritage's long-term financial soundness and risk management framework. In this regard, Heritage's Human Resources department has a set of policies and procedures in connection with remuneration including incentives, commissions and other benefits.</p>
	<p>whether the Remuneration Committee reviewed the ADI's Remuneration Policy during the past year, and if so, an overview of any changes that were made; and</p>	<p>The Remuneration and Governance Committee reviewed Heritage's Remuneration Policy in October 2014.</p>
	<p>a discussion of how the ADI ensures that risk and financial control personnel (as defined in paragraph 48(b) of CPS 510) are remunerated independently of the businesses they oversee.</p>	<p>Risk and financial control personnel are paid a fixed component of remuneration that reflects their core performance requirements and the expectations associated with their particular position. These personnel are eligible to be paid a yearly incentive dependent on the individual's performance throughout the year and the duties and responsibilities undertaken. Such personnel are not provided with a yearly incentive payment on the sole basis of Heritage's financial performance.</p>
(c)	<p>Description of the ways in which current and future risks are taken into account in the remuneration processes. Disclosures must include:</p>	
	<p>an overview of the key risks that the ADI takes into account when implementing remuneration measures;</p>	<p>Risk management is built into the framework for certain senior executives to ensure specific risk management outcomes and actions. Measurable outcomes may be developed against these risks in certain circumstances.</p>

Remuneration disclosure as at 30 June 2015

	a discussion of the ways in which these measures affect remuneration; and	For senior executives, any performance based component of remuneration is designed to align remuneration with prudent risk-taking and incorporate adjustments to reflect the outcomes of business activities, the risks related to the business activities taking account, where relevant, of the cost of the associated capital and the time necessary for the outcomes of those business activities to be reliably measured.
	a discussion of how the nature and type of these measures has changed over the past year and reasons for the change, as well as the impact of changes on remuneration.	The key measures relating to remuneration are seen as appropriate for the environment and business objectives and have not changed in the past twelve months.
(d)	Description of the ways in which the ADI seeks to link performance during a performance measurement period with levels of remuneration. Disclosures must include:	
	an overview of the main performance metrics for the ADI, top-level business lines and individuals;	Senior executives are paid a competitive fixed component of remuneration that reflects their core performance requirements and the expectations associated with their particular position. No senior executive is provided with a yearly incentive payment based solely on Heritage's financial performance. Senior executives may be paid a yearly incentive dependent on the individual's performance throughout the year and the duties and responsibilities undertaken. Senior executive performance is measured against four areas, namely culture, individual performance, leadership and strategy.
	a discussion of how amounts of individual remuneration are linked to institution-wide and individual performance; and	The opportunity for senior executives to be granted a yearly incentive payment is designed to support Heritage's overall remuneration policy by focussing senior executives on achieving yearly personal and departmental performance goals which contribute to sustainable Heritage growth and member value. Linking short term incentive payments to individual performance ensures that senior executives establish a People first work culture that continually supports Heritage's long term financial soundness.
